

Event Photography Policy

Special Olympics GB does not currently require people taking photos at Special Olympics events to register in order to do so.

Some venues do however require a camera registration system to be in place and so the following are available for use by Event Mangers if required:

- [Camera Registration Form](#)
- [Camera Registration Sign](#)
- [Camera Registration Badges](#) template for registered camera users

The Camera Registration Badges template is designed for standard Avery L7160 labels. However they can be printed onto any label with the following sizing information:

Top Margin	1.51cm
Side Margin	0.72cm
Vertical Pitch	3.81cm
Horizontal Pitch	6.6cm
Label Height	3.81cm
Label Width	6.35cm
Number of Labels across	3
Number of Labels down	7
Page Size	A4

Photo Permission

The standard Special Olympics GB Athlete/Unified Partner Release Form gives Special Olympics GB (including regions and clubs) permission to use an athlete/unified partners' name and any photos taken of them in the press or for publicity to promote Special Olympics.

If this permission has not been given for any athlete/unified partner, it is the responsibility of the club of which that athlete/unified partner is a member of, to notify Event Managers of this in advance so that the appropriate action can be taken.
